Welcome to Your Medical Home

MAKE EACH DOCTOR'S VISIT WORK FOR YOU!

Before your visit

- Write your own questions and worries. Do not worry if it's a long list.
- If you see a specialist, ask them to send their report to your primary provider here at AccessHealth.
- Confirm that your registration with AccessHealth is up to date.

On the day of your visit

- Provide us with your complete medical history and information from any another medical provider.
- Put all your medicines in a bag and bring them with you to your doctor's visit.
- Bring your Medicare, Medicaid, or other insurance card. Bring your list of questions.
- Please ask for help, ask a friend or family member to join you.

During your visit

- Relax! Ask questions! Tell us when you don't understand. Remember we want the very best for you.
- Ask us to tell you the values of your blood pressure, weight, and lab tests. Keep a record of these.
- Ask us when you should schedule your next visit.

After your visit

Keep your medical information in one place-ready for the next visit.

Things that you can do for your self

- Learn as much as you can about how to care for your illness. The more that you know, the better will be your health.
- Some health problems such as diabetes require you to change how you are eating and living. Talk with your doctor, family and friends as to how you can make these changes. Start enjoying the benefits of better health now.
- Make sure that you understand how to take your medicine. If you do not understand how to take them, ask us for help.
- Don't stop taking prescription medicine without first talking with your healthcare provider.

When to Choose the Hospital/Emergency Room or AccessHealth, Your Medical Home

We are fortunate in our community to have access to 24-hour Emergency Room care. Of course, no one can time an illness or injury to occur during the hours of a doctor's office or clinic. However, many acute illnesses, such as colds, flu, sprains, strains, minor infections, minor cuts and bruises, skin rashes, common diarrhea, lower back pain, mild vaginal infections, and irregular periods do not require an Emergency Room visit. Such ailments usually resolve on their own within a short period of time. If they require medical treatment, they should always be addressed at AccessHealth, your Medical Home. Generally, you should not go to the Emergency Room for medication refills, or medical problems that are chronic in nature, unless you experience sudden worsening of your condition. Always choose your Medical Home for check-ups, shots, and help with long term conditions.

So, when should one seek care at the Emergency Room? There are certain symptoms that should prompt an ER visit even during operating hours of AccessHealth. These include:

- 1. Severe chest pain
- 2. Vomiting Blood
- 3. Sudden loss of consciousness or change in mental status (acting strange)
- 4. Sudden weakness of body parts
- 5. Severe difficulty breathing
- 6. Overdose of medicine or ingestion of toxic substance. Call Poison Control at 1.800.222.1222

- 7. Severe burns or inhalation of smoke
- 8. Uncontrollable bleeding that will not stop
- 9. Attempted suicide
- 10. Emergency labor/ childbirth
- 11. Severe trauma (injury)
- 12. Sudden severe abdominal pain
- 13. Sudden severe headache or sudden loss of vision
- 14. New seizure (convulsion)

Sometimes it may not be clear when an illness is serious enough to use the Emergency Room. Children and older persons, or patients with underlying illness may need medical attention sooner than a young adult or otherwise healthy person. If you are not sure what to do and it is during AccessHealth office hours, you should call or come into the office. **After hours you may call the office number** and speak with the physician on-call about your illness.

It is important that you get proper care, and in a true emergency that means calling 911 or going to the Emergency Room; otherwise it means care at AccessHealth, your Medical Home. If you go to the Emergency Room, please schedule an appointment with AccessHealth within 10 days of your discharge.
