Why TechGuard?

Our Team
The Cybersecurity Specialists at TechGuard are highly educated and certified professionals who have utilized their extensive IT security experience to support Fortune 500 companies, SMB clientele, and multiple governmental agencies. Our work is <u>never</u> outsourced.

Our Process
We offer tremendous value to our clients by creating a customized plan and providing actionable and consumable reports as well as our recommendations for remediation.

Our Approach
We take a personalized approach that meets the needs of each individual client we work with, and we're willing to grow your cybersecurity program as your business grows. We're focused on developing long-lasting relationships with our clients, because to us, you're more than just a number.

TECHGUARD SECURES YOUR HEALTHCARE ORGANIZATION FROM INTERNAL AND EXTERNAL THREATS SO YOU CAN FOCUS ON WHAT MATTERS MOST, PATIENT CARE.

TechGuard's high-quality programs go a step further than simply meeting training requirements. They engage employees and teach them the importance of safeguarding Protected Health Information to reduce your risk of a HIPAA violation.

Make sure your company is compliant and free of violations with the team of professionals at TechGuard!
